For both business cards and brochures, you will receive a PDF press check copy before it hits the press. We recommend a flatten photoshop file 300 dpi (cmyk), works best. To add a foiled logo we would need a separate black and white file of your logo.

Process:

- Send a low res sample with amount, paper type (glossy or matte), and if you will add a foil. We can add your foil for you for a small cost.
- We will send you a quote.
- If you agree, we will send you a paypal invoice (you don't need a paypal account).
- You will then send us your file through email. We will take a look at it and advise you if it will work or not. (We charge \$60 hr to fix files.)
- You will receive a PDF of your file to proof. When you approve it, the job will start. (No refunds)
- You wait time is about 1-2 weeks. You will receive it though mail or drop off.

If you would like a sample or need help, please send an email request.
